

Matthew E. Lemke

Matt has been with Optima since September of 2005. Matt has a passion for continuous improvement and helping individuals and organizations adopt lean principles. Matt is both an excellent trainer and hands-on coach/leader. Matt has been instrumental in designing our Leader Standard Work and Training Within Industry (TWI) curriculum and implementation services. Matt also was responsible for updates to our world-class assessment tools. Matt's desire to roll up his sleeves and help organizations get real work done makes him a sought after resource at Optima clients. His safety and compliance knowledge and experience blends well with his Lean skill set.

Prior to joining Optima, Matt was a compliance and valuation specialist at an Architectural and Engineering company. Matt has worked for over 10 years with government agencies, educational institutions, and manufacturers throughout the United States, and has been involved with Homeland Security on the U.S. Visits Program.
